## Summary

---

Enthusiastic Python and MERN stack developer with a passion for crafting high-quality code. Proficient in database management, user authentication, and developing intricate web applications. Ready to contribute skills to diverse projects as a quick learner and adept problem-solver.

## Experience

---

### Web Application Developer

SLG Digi PVT. LTD. • KA

01/2025 - Present

- Designed and developed responsive pages, including the landing page for the online trading course website, to improve usability and user engagement: slgdigipvtltd.in.
- Developed and maintained an online trading course platform with CRM for three employee roles (FM, RM, TL) with custom dashboards.
- Built user and admin dashboards with secure authentication and role-based permissions.
- Integrated Razorpay for seamless payments.
- Implemented modules for attendance tracking, leave management, document and course management. Enabled users to view purchased courses and manage accounts.
- Tech stack: MERN (MongoDB Atlas, Express.js, React with Vite, Node.js).

### Full Stack Web Development Intern

Sash Info Services PVT. LTD. • KA

04/2024 - 07/2025

- Played a key role in developing the React-based application ClientCtrl, focusing on creating dynamic, responsive user interfaces.
- Built and optimized RESTful APIs using Laravel framework, ensuring seamless communication between the front-end and back-end systems.
- Technologies: React.js, HTML5, CSS3, JavaScript (ES6+), Axios, Laravel, MySQL.

### Full Stack Web Development

Contracted • Remote

10/2023 - 12/2024

- Created a comprehensive Django-based billing system featuring bill generation, customizable dashboard, inventory reporting, and filtered bill reports by specific dates. Implemented user-friendly functionalities for adding, updating, and removing items from inventory and bills.
- Ensured mobile responsiveness for seamless access across devices, showcasing a commitment to enhancing business efficiency and productivity.
- Tech stack: Django, Python, HTML, CSS, Javascript, Bootstrap and SQLite DB
